### New OCP inks for HP 950 / 951 cartridges available

After finishing the development, OCP seems to be the first aftermarket company worldwide to release the inks for the new HP 950 / 951 cartridges.

To ensure achieving the best possible printing results equal to the performance of the OEM, we always just use the best raw materials for our ink formulation. And as HP is using pigment inks in the black and in the colour of their new HP 950 / 951 cartridges like they already did in the former released HP 940's, OCP does it as well.

The HP 950 / 951 cartridges are only used in HP Officejet Pro 8100 / 8600 series printers until now but from our experience further printer models will follow.

The HP Officejet Pro 8100 and the Officejet Pro 8600 are equipped with a permanent printhead using four individual cartridges. In both printers the resolution is declared up to 4800 x 1200 dpi, where borderless printing is possible. The printers are able to print up to 20 black pages / minute and up to 16 coloured pages / minute. The HP Officejet Pro 8600 additionally is equipped with a LCD colour screen. The LCD is available in 6,75cm – 10,92cm, depending on the printer model version.

A complete list of OCP's new released inks for HP 950 / 951 cartridges is shown below:

Printer	OEM cartridge	Colour / Type	OCP ink(s)
HP Officejet Pro 8100 / 8600 Series	CN049AE (950)	Black Pigment	BKP 280
	CN050AE (951)	Cyan Pigment	CP 280
	CN051AE (951)	Magenta Pigment	MP 280
	CN052AE (951)	Yellow Pigment	YP 280
	CN045AE (950XL)	Black Pigment	BKP 280
	CN046AE (951XL)	Cyan Pigment	CP 280
	CN047AE (951XL)	Magenta Pigment	MP 280
	CN048AE (951XL)	Yellow Pigment	YP 280

As already known from other cartridges, the new HP 950 / 951 cartridges are also equipped with a chip which is recognized by the printer. A replacement chip currently does not exist; therefore the ink level monitor must be switched off within the printer driver. This could be done in the following way (depending on the printer):

### **HP OfficeJet Pro 8100**

1. On the printer control panel, press and hold the (Wireless) and (Resume) buttons.
2. The ink supply icons will blink four times.
3. Press and hold the (Wireless) and (Resume) buttons again to turn usage information collection back on.

### **HP OfficeJet Pro 8600**

1. On the printer control panel, touch (right arrow), and then touch (Setup).
2. Select (Preferences), and then select (Cartridge Chip Information).
3. Touch (OK) to turn off usage information collection.

Samples are - as always – available on demand in 0,25kg packaging. For individual samples and quantities please inform us about your detailed demand.
